

SWEEEPING ADVANCES IN MARKET CONTINUE

Stock Exchange Sees Another Day of Tumultuous Trading and Heavy Realizing. Speculation Is Increasing. Public Is in the Saddle, and Believes Any Report of Great Profits to Be Made as Direct Result of the European War.

NEW YORK, April 15.—It was another day of tumultuous trading, broad buying movements, sweeping advances, heavy realizing and considerable selling pressure from London. Perhaps the market was not as strong as the close in the morning.

Two facts in the market stand out: the large increase in speculative buying and the heavy investment selling. The reaction, repeatedly deferred, is still overdue. Mark officials discredited strongly against certain speculative rumors as collateral for loans. Some big market makers have closed out their speculative positions, but others have been able to stand up until the market has shown its ability to stand up under a substantial advance. One stock advance came at 10:30, and was followed by a rise in the stock market.

Interborough common was the most active issue at the opening. Directors met to consider the right to issue preferred stock. Interborough common was the most active issue at the opening. Directors met to consider the right to issue preferred stock. Interborough common was the most active issue at the opening. Directors met to consider the right to issue preferred stock.

Receipts of oats at primary markets and corn... CASH SALES HERE WERE 32,000 BUSHELS OF CORN AND 36,000 BUSHELS OF OATS.

REQUISITION FOR BAGBY

Cocaine Fled Charged With Hold-Up Arrested in Washington.

Ward A. Bagby, who escaped from the Western State Hospital, Staunton, February 2, as a fugitive from Virginia, and will be returned to Roanoke, where criminal charges are standing against him.

Bagby has a police record in Richmond. He is a police defier. During his career here he was several times arrested in one instance he was charged with tampering with witnesses in a cocaine case. A commission of lunacy, however, pronounced him insane, and he was committed to the asylum.

The charge against him in Roanoke is robbing three men who were in a bachelor apartment at the point of a pistol. Several days ago he appeared in Roanoke and pulled off the spectacular hold-up, according to the police. From Roanoke he fled to Washington, where he was nabbed. Bagby is said to have got away with about \$500 when he fled the bachelor apartment.

At the request of the chief of police of Roanoke, Governor Stuart yesterday issued a requisition on the Chief Justice of the Supreme Court of the District of Columbia for Bagby. Having been adjudged insane, it is likely that he will be prosecuted for the alleged crime in Roanoke, but may be committed to an asylum for the criminal insane.

Unsubscribed Files Bond. State Commissioner of Hospitals J. M. Hausman, who entered upon his new term in office April 1, yesterday

than the shorts care to admit. The sensational advance of 94c yesterday, when only a part of the shorts attempted to cover, showed that had not the longs been willing to take handsome profits, which were based upon them, the price gains would have been much greater than shown. The shorts, who are in a bad way, are short on one end of the country to the other. The advances are believed to be pretty well centered. This condition makes the standing of the longs and the bulls much smoother than the shorts. The larger men of the trade are to be found on the bull side of the market for the reason that many traders are short in the belief that the export takings were likely to drop off still further and that the country was to increase its output of wheat in 1915. The shorts, however, are larger, but for the reason that they have entered the market for the cash article, and those who put out short lines have led in the country with the matter of price a secondary consideration. It has been claimed that Great Britain owns the larger part of the wheat held in this country, as well as nearly all the wheat in India. The United States will take the wheat out of the United States and Canada as rapidly as there are boats furnished with which to carry it to Europe. The visible supply in the United States continues to grow less each week, and one of the strengthening factors in England is the general belief that the visible supply in India is being depleted. In Canada as well, is largely owned by the English government.

The advances at Liverpool to-day of 1/2 to 1 1/2 were only meager reflections of the stock shown at Chicago on Wednesday. Corn closed fractionally higher, while oats were 1/2 lower to 1/4 higher, corn ruled firm, and oats were in demand. The market was influenced by the fact that the latter market ruled weak under persistent May liquidation and ruled 1/2 right up to the close. Sea-bourts also long, who have claimed all along that they wanted the grain for shipment were changing over to July. Liberal re-
